

Wednesday July 23rd at UVM
Moderated Panel Discussion with Students
6:45-8:15 PM

6:45 to 7:25. Each company representative is asked to prepare a 5-10 minute introduction. We suggest that you comment on:

- Yourself: how did you get interested and into your work with the company?
- Your company: what does the company do, how is it structured, what natural resources does it rely on? How does your company contribute to the welfare of humanity and nature? (We will try to provide students with background information in advance.)
- What does good natural resource management mean for your company? What policy procedures work or don't work for your company?
- How can we improve the business climate and develop regenerative, sustainable use of our resources?

7:25 to 8:05. Student question and response.

8:05 to 8:15. Company representatives will have the option to make brief (2-3 minutes) closing comments.

Web site links to each company can be found at:
